ALTO

GO HAPPY

Imagine a world where there is joy at every turn and sheer delight at every intersection. The new Alto is here for those seeking happiness all along the way. Teeming with a host of new features, the Alto remains true to its simple and friendly DNA. The sleek and youthful car lets you take on the day with a smile. Go ahead; switch it on, go happy.

A Friendly Impression on the Go

What makes the new Alto a true delight is its simple and friendly design. With a big honeycomb-patterned front grille, the car exudes a friendly and cheerful smile-like appeal, reflecting a fun and happy personality for you. The exciting colours and seamless contours make the car look contemporary and trendy to the core. Take it out; it's the go-to friend by your side every time you drive.

A Refined Look Inside Out

Behind an appealing exterior is always a stylish interior. The new Alto features comfortable interior complemented by a host of user-friendly features. What's more, the floating design 7-inch display audio along with steering mounted controls and a digital speedometer make every drive a delight.

The lights and display are turned on for illustrative purpose.

7-inch display audio

Bring fun and convenience to your driving experience with the 7-inch display audio. Use your smartphone apps on the display screen with Apple CarPlay® and Android Auto™ and stay happy on the go. With WVGA capacitive touchscreen, now orchestrate everything seamlessly and keep track of the vehicle status while you drive on.

The display audio is optional for GLX.

Digital speedometer

The digital speedometer with the information display lets you stay sync with information about time and fuel consumption*.

*Available for GLX.

Steering mounted controls

Get a comfortable grip on every drive and steer clear of distractions with the steering mounted controls. Now operate media functions without taking your eyes off the road and enjoy convenience behind the wheels.

Apple CarPlay®

Apple CarPlay is available in the countries listed at the following link: <http://www.apple.com/ios/feature-availability/#applecar-play-applecarplay>
*For more details including iPhone models compatible with Apple CarPlay see: <http://www.apple.co/ios/carplay/>
*Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

Android Auto™

Android Auto™ is available in the countries listed at the following link: <https://www.android.com/auto/>
*To use Android Auto on your car display, you'll need an Android™ phone running Android 8 or higher, an active data plan, and the Android Auto app.
*Google, Android, Android Auto, YouTube Music and other marks are trademarks of Google LLC.

Drive Comfort

Taking on the city every day requires a drive that's comfortable to the core. The Alto comes with a spacious cabin and more legroom for maximum comfort.

Ample Space for Your Needs

With sufficient holders, convenience is an integral part of every journey you take in the new Alto. The 214L* luggage space allows you to accommodate more luggage as you plan your journey ahead. Enjoy a sense of flexibility & freedom with the extended luggage and cabin.

*Manufacture data. When rear seats are raised. Always secure all cargo. The luggage shelf is available for GLX grade only.

Experience Optimised Performance & Safety

With the power of a DUALJET engine, the new Alto makes you explore the city without inhibitions, turning even regular drives into joyrides. Equipped with a host of safety features, the car lets you drive with peace of mind.

1.0L DUALJET engine

The 1.0L DUALJET engine lets you get the best out of every drive. It delivers comprehensive advantages in thermal efficiency resulting from a better compression ratio, dual injection system and friction reduction, realising a high-level of balanced dynamic performance and fuel efficiency.

Suspension

The Alto takes on every road with equal ease. The highly tuned suspensions ensure solid cornering and responsive handling, while assuring a relaxing smooth drive.

Airbags

Drive peace of mind with the Alto. The dual front airbags help protect both the driver and the front passenger.

The image is for illustrative purpose only.

Seatbelt pretensioners & force limiter

The pretensioner designed to tighten the seatbelts will restrain the occupants instantly and prevent from being thrown forward in case of a frontal crash. Moreover, the force limiter aids the occupants from seatbelt inflicted injuries.

ABS with EBD

In emergency braking or on slippery surfaces, the anti-lock brake system (ABS) keeps tyres from locking, and enhances the driver's ability to avoid obstacles through steering. Furthermore, the electronic brake-force distribution (EBD) optimally distributes front and rear braking force to help stably stop the vehicle.

ESP®

ESP® detects wheel slip, for instance when you turn the steering wheel sharply and/or the road is slippery, it automatically affects control over the engine torque and brakes to suppress the wheel slip helping you stay in directional control.

*ESP is a registered trademark of Mercedes-Benz Group AG. The ESP is designed to help keep the Alto under control. However, its effectiveness depends on driving conditions and the state of the road surface. If the tyres exceed their grip limit and the wheels start to spin or skid, it may not be fully effective.

Rear parking sensors

The Alto comes with ultrasonic sensors in the rear bumper which helps detect obstacles while you park the car. Warning sounds keep you aware of the distance to the obstacle, making parking a simple task.
