NEW FULLBACK

NEW FULLBACK

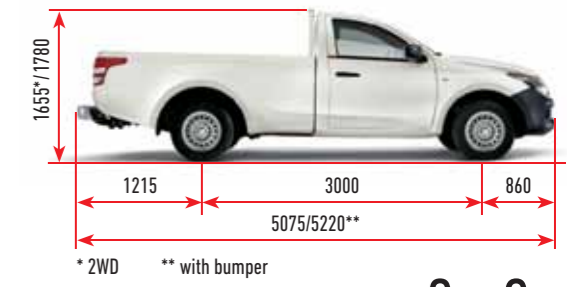

IT SHOULDERS EVERYTHING. EVEN YOUR **BIG** DREAMS.

Now you can make your dreams a reality with someone to share the load. It's the **new Fullback**, an urban and off-road work vehicle that's rewriting the rules of versatility. It combines rugged looks with an outstanding drag coefficient (0.40). And with a turning radius of just 5.7 m (2WD) or 5.9 m (4WD), the **new Fullback** not only carries everything, it's a breeze to manoeuvre and park too. So wherever you go, from city traffic to a windswept work site, it'll get you there.

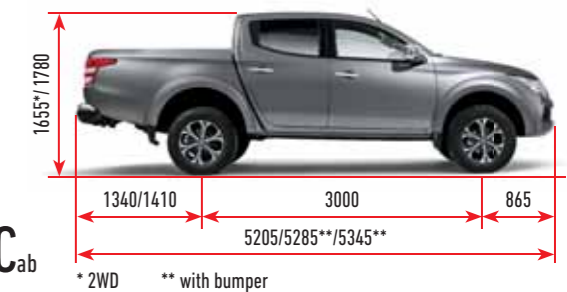

NEW FULLBACK

The new Fullback comes in 3 versions - single cab, double cab and chassis-cab - so it covers all your needs. And with its spacious, reinforced cargo bed, it'll stand up to the heaviest loads.

Single Cab

Double Cab

Single Cab

Double Cab

**THE
BIGGER
THE LOAD,
THE EASIER THE SUCCESS.**

You can count on the new Fullback any time, anywhere. Measuring 5.2 m long by 1.8 m wide. The **new Fullback** has a powerful, muscular look. But its key strength is its payload, of up to 1,000 kg.

NEW FULLBACK

**IT GIVES
YOUR
CHALLENGES
A HUGE SPACE.**

The new Fullback won't let you down, however tough the job is. But it's also got your comfort covered too. Its spacious and stylish interior is soundproofed, so you won't be distracted by noise or vibration. With supportive seats, optimised driving position, five upholstery options (including leather), three dashboard styles (one for each trim) and automatic dual-zone air conditioning, it's got all the comforts of a car. And if that's not enough, the smart infotainment system gives you everything you need to tackle your day in style.

NEW FULLBACK

If you want a relaxed ride without compromising on performance, why not go for the 5-speed automatic, which lets you change gear with a simple lever movement? Just slip it into 'Drive' and away you go.

Five-speed automatic gearbox

And with the exclusive 4WD* electronic selector you can go anywhere, at any speed, in 4-wheel drive. So when the going gets tough, just turn the differential knob and send maximum torque to each wheel. Job done.

* only for automatic transmission

Five-speed manual gearbox for the 4WD version

A GREAT BOOST TO HAVE A GREAT DAY AT WORK.

When there's work to be done. The new Fullback ready for anything and totally unstoppable.

The new Fullback's range of powerful, reliable engines includes:

- a 2.5-litre diesel with 81 to 131 kW of power on tap, and a five-speed manual or automatic gearbox;
- a 2.4-litre 97 kW petrol with five-speed manual gearbox.

But the new Fullback's not all about power, it's about protection too. So depending on trim, it comes with driver and passenger airbags and a range of safety systems, such as ESP with Hill Assist which makes the uphill departures easier, bi-xenon headlights, LED daytime running lights, rear view camera and cruise control.

S

Standard*

Drive system: 4x2 or 4x4
 Suspension: Heavy Duty Suspension
 Exterior: Black front bumper
 Rear cromed bumper (opt)
 Cargo bed outer hooks (opt)
